

Respected Dr. FHSM team distributed free one month ration and safety kits to 50 families of the Irular community in Agaramthen village due to Covid-19 lockdown. These 50 families consisting of 311 members were provided with free ration. This timely help provided by FHSM to the people was a very big relief to the family, since all the earning members live on daily wages. Since they were not able to get work in this period, all the family members were forced to have inadequate daily meals. This ration provided by FHSM should sustain them with proper meals for one month until the lockdown is over. The beneficiaries thanked Leonard Pektor(Croatia), Anup Shenai, Evelive Lee (Malaysia) and Dharmachari Bodhidharma (Pune) for their timely help that made a huge change in their life.
